OBJECTIVE

Pre-Final year BTech CSE student specializing in Data Science & Machine Learning, with hands-on experience in predictive modelling and AI applications through projects like air quality prediction and breast cancer diagnosis. Skilled in business intelligence, data structures & algorithms, analytics, and data visualization, with proven organizational abilities honed through leading student-led initiatives.

SKILLS

TECHNICAL

- Languages:** C/C++, Python, HTML, JS, CSS
- Databases:** SQL, DBMS
- Tools/Platforms:** MySQL, GitHub, Power BI, Tableau, Bootstrap, Power point, CANVA
- Libraries and Frameworks:** SK Learn, Pandas, Numpy, Matplotlib
- Concept:** Classification, Regression, Data Preprocessing

SOFT

- Leadership, Team Building & Teamwork
- Adaptability, Inquisitiveness and Management
- Strategic planning & Implementation
- Observation and Decision making
- Problem-Solving & Analytical and Critical Thinking
- Research and Technical Writing

EXPERIENCE

- 1st Prize** – Hackathon, Yuva Fest | Lamrin Tech Skills University | 2023
- Runner-up** – University Level Ideathon | **Sept 2024**
- Runner-up** – Web Development Competition (Byte Battle) | PTU Jalandhar | 2024
- Participation** – National Level Hackathon, IBM ICE | KARE, Madurai | 2024
- 1st Prize** – Skit, Inquilab Festival | Nawanshahr | 2024
- 1st Prize** – Ideathon, 54th ISTE National Annual Convention & Yuva Kaushal Utsav | 2025

EDUCATION

LAMRIN TECH SKILLS UNIVERSITY PUNJAB	2023 - 2027
B. Tech CSE Data Science	
MANAS CONVENT SCHOOL, MUGHALSARAI	
Intermediate PCM CBSE	2022 – 2023
Matriculate CBSE	2021 – 2022

CERTIFICATIONS

- AI-ML with Data Science Workshop** – IIT Ropar | **Issued Feb 2024**
- React JS Bootcamp** – LetsUpgrade (Collab with NSDC, ITM Edutech & GDG MAD) | **Apr 2024**
- Career Essentials in Data Analysis** – Microsoft & LinkedIn | **Issued Mar 2025**
- Career Essentials in Generative AI** – Microsoft & LinkedIn | **Issued May 2025**
- Data Analytics Job Simulation** – Deloitte Australia (Forage) | **Issued Jun 2025**
- Prompt Design in Vertex AI Skill Badge** – Google | **Issued Jul 2025**
- Google Analytics Certification** – United Latino Students Association | **Issued Aug 2025** · Expires Aug 2026 · Credential ID: 157006672

LANGUAGES

- ENGLISH
- HINDI
- BHOJPURI

PROJECTS

- AIR QUALITY PREDICTIVE MODEL | *ML Predictive Model, Python*** | **94% Accuracy**
 - Developed a **machine learning model to predict Air Quality Index (AQI)** using Decision Tree, Random Forest, and Linear Regression techniques.
 - Trained on **organic CPCB data**, considering 8 pollutants and 6 meteorological factors for accurate predictions.
- BREAST CANCER PREDICTION MODEL | *ML Predictive Model, Python*** | **ONGOING | 79% Accuracy**
 - Developing a **Breast Cancer Predictive Model** using machine learning and deep learning algorithms, including VGG16 and Sigmoid.
 - Achieved **79% accuracy** with Sigmoid and continuously improving performance by experimenting with advanced deep learning techniques.
- SPEECH THERAPY PLATFORM FOR AUTOMATED DIAGNOSIS | *Python, NLTK*** | **ONGOING |**
 - Designed a **prototype platform to connect certified speech therapy doctors** and provide **AI-powered automated diagnostic tests** for speech accuracy assessment.
- HATE SPEECH DETECTION MODEL | *Python, NLP*** | **ONGOING |**
 - Built a **Hate Speech Detection model** to identify offensive language in tweets using NLP techniques.
 - Preprocessed text (stemming, stopword removal), applied CountVectorizer, and trained a Decision Tree classifier, achieving **high accuracy and F1-score**.
- SMS SPAM CLASSIFICATION | *Python, SVM, NAIVE BYES*** | **93% Accuracy**
 - Developed an **SMS Spam Classification model** to identify emails as spam or ham.
 - Implemented text preprocessing, TF-IDF feature extraction, and trained models (Naïve Byes and SVM) for real world.

DECLARATION: I confirm that the details shared are accurate and reflect my professional journey honestly.
